PORTAVAC PV400BFH

Technical Specifications

The Screenpod PV400BFH offers a compact, yet powerful self-contained industrial vacuum with a vast range of attachments, that's fully mobile and capable of handling a huge variety different materials in sizes ranging from fine dust to large debris, in both indoor and outdoor applications, with its own high capacity, integrated hopper for material collection, from which material is emptied via a dump valve into a container such as a skip or FIBCs & Bulk Bags.

- Can handle huge variety of different materials in vast range of applications
- Powerful blower fan providing long range suction with high capacity
- Can vacuum material ranging from fine dust up to debris 40mm in size
- Integrated hopper with large capacity for material collection
- Dump valve for easy material discharge into skip or FIBCs Bulk Bags
- Telescopic legs for adjustable working height and excellent stability
- User friendly interface for straightforward operation
- Air filtration system that removes 99.7% of airborne particulate matter
- Easily replaceable Bag & HEPA filter elements
- Integrated plug for connection to standard 32 Amp 3-Phase Power Supply
- Wide range of attachments with different hose sizes available
- Long, flexible hoses provide reach for hard to access areas
- Low operating costs with minimal maintenance requirements
- Compact footprint with low noise emissions
- Fork pockets and lifting eyes for easy transportation
- Access doors and removable panels for service access
- Emergency stop for shut down
- Robust steel construction with highly durable coating
- Suitable for indoor and outdoor applications
